[HTML] Improvement of an online education model with the integration of machine learning and data analysis in an LMS

W Villegas-Ch, M Román-Cañizares, X Palacios-Pacheco

Applied Sciences, 2020 • mdpi.com

The events that took place in the year 2020 have shown us that society is still fragile and that it is exposed to events that rapidly change the paradigms that govern it. This has been shown by a pandemic like Coronavirus disease 2019; this global emergency has changed the way people interact, communicate, study, or work. In short, the way in which society carries out all activities has changed. This includes education, which has bet on the use of information and communication technologies to reach students. An example of
